

CONTENT CLUSTER STRATEGY FOR THE TRAVEL GUIDE OF

MANALI

By — Himanshu Verma

OVERVIEW

The aim of this strategy is to build a **Content Cluster Strategy for the Travel Guide of Manali**, covering the town's top attractions, local food, shopping spots, travel tips, and best times to visit — everything a traveler needs to explore the valley of gods.

WHAT IS A CONTENT CLUSTER STRATEGY

A content cluster strategy helps structure content around main themes, improving search visibility, user experience, and topical authority — turning one travel blog into the go-to resource for an entire destination.

HOW IT WORKS

Pillar Content

This is a main, comprehensive page that covers a broad topic in depth (e.g., "Ultimate Travel Guide of Manali").

Cluster Content

Supporting articles focused on specific subtopics related to the main theme (e.g., "Top Attractions in Manali", "Manali Culture & Festivals", "Manali Shopping Guide").

Internal Linking

Each cluster page links back to the pillar page (and vice versa), helping search engines understand the relationship between the pages and boosting overall SEO performance.

PILLAR TOPIC

Ultimate Travel Guide of Manali
